SANTA FE- Governor Bill Richardson today will announce a bold new economic development initiative designed to create successful high-tech businesses and thousands of new, high-wage jobs in New Mexico. The Governor will also speak to the employees of Sandia National Laboratories, the first New Mexico Governor to make such an address, according to a lab spokesperson.

Also-

When a major emergency occurs, most times the first vehicle on the scene is one that is manufactured right here in Albuquerque, New Mexico. Governor Richardson and company officials will tour the innovative Mobile Emergency Operations Vehicle, manufactured by Titan Industries.
