SANTA FE- Governor Bill Richardson today issued the following statement marking the passing of former President Ronald Reagan:

"President Reagan brought back grace, strength, and class to the American Presidency. He restored the nation's pride at a time when our collective spirits were low. He was especially popular in New Mexico, where his cowboy grace and strength played very well. I want to personally join with all New Mexicans, and the entire nation in offering our sincere condolences and prayers to Nancy and his family."

Governor Richardson served as a United States Congressman (D- New Mexico) during both of President Reagan's terms.
